

## The Friends of the MUHC Toonie Challenge

*Here are the steps to creating your school's own Toonie Challenge*

1

Select a teacher who will be your Toonie Challenge representative and plan your fundraising activities.

2

Come up with an idea to collect Toonies as part of a school-wide initiative.

Examples include: healthy eating pledge, baking and smoothie sales, carnival day, free-dress day etc. Designate 10 students who will act as representatives for your school at the Toonie Challenge's presentation event.

3

Explain your school's fundraising activities and proudly take part in the cheque presentation. Visit the interactive MUHC kiosks to learn more about the hospital. Past exhibitors include pediatric dentistry, The Shriner's Hospital, neurology, cardiology, and The Research Institute.

**Be part of this great initiative and have fun!**
